Dear Mrs. Hartman,

Thanks very much for the letter and the transcript of the Thornley interview. It is helpful, I think valuable, and I have a call in to Garrison to see if he wants a copy if he does not have the tape. Incidently, if you could make a copy of the tape for me I'd appreciate it. Or, if you cannot, if you can lend it to me long enough for me to make a dub, I'd appreciate it. There is much here can come from an inflection (some of which you indicated). I can also make a dub for Garrison if you cannot. I think he'll want it if he doesn't have it.

I know of no index but Sylvia's, and it is out of print.

I know little of Lincoln Lawrence. The whole things is a gimick. Your opinion is mine. It is fakery and I think you give the answer why.

John Rene Heindell was not abused. Thornley's problem is that he is not as bright or as all-knowing as he thinks he is. He may know fact that he doesn't understand, as with Oswald's security clearance. He made no mention of this.

I did get to read the transcript before tonight's show, and that is helpful. Again, many thanks. Please excuse the haste.

Sincerly,
